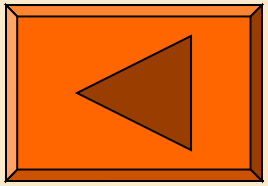
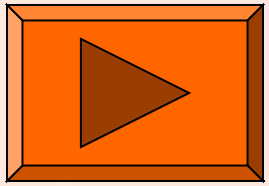
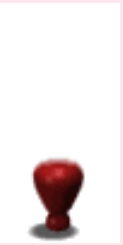
Where did it come from?

- The Safe Neighborhood Awareness Program was first created from a single MP who wanted to emphasize Force Protection and Crime Prevention in a single program. It began as a trial program in May 2002 in the U.S. Army Europe area of responsibility and accepted into the Army Programs April 2003.





The SNAP Objectives are:



1. Increase Force Protection and Crime Prevention Situational Awareness.
2. Reduce vulnerabilities through enhanced observation and reporting skills.
3. Widely disseminate force protection and crime prevention information through the SNAP Pamphlets and Newsletter.
4. Introduce soldiers, civilians, and family members in force protection and crime prevention.
